

Welcome to *Aspire*!

Looking for an innovative way to support families in your community to overcome poverty & increase wellbeing?

Aspire can help!

Aspire is an **innovative, technology-based self-assessment** of wellbeing. Aspire activates the potential of individuals and families to overcome barriers to thriving and to achieve their goals for their lives. Using Aspire, participants identify their **strengths, needs, and priorities** for growth.

Aspire enables you to better understand the circumstances of the people you serve. It helps families to break down the complex challenges they face into smaller, more manageable pieces. Together, you can create an action plan for achieving their goals. Aspire leads to better outcomes for families and the organizations that serve them.

Aspire assesses six
dimensions of
wellbeing

Income &
Employment

Education &
Culture

Housing

Social Capital

Health &
Environment

Personal
Strengths

Each indicator is
measured **green**,
yellow, or **red**

Thriving

Struggling

Suffering

How it Works

Coaches Training

UNC trains workers at partner organizations to be Aspire facilitators and coaches.

Admin Dashboard

Aspire includes an easy-to-use dashboard for participants and coaches.

Mapped Data

Data are mapped so you can see areas of need in your community.
